Sequel—Dr. C. Sill's Reply to J. L. King, alias Pittsburgh Dental Association.

Two members of that distinguished body assisted in the production and publication of an article entitled *"the particulars of that Death from Laughing Gas."* The one they attempt to explain had reference to my true standing in that Society. The object of their late meeting will be seen by reference to the article here mentioned, which was held at the office of J. S. King. They are determined to put down anything that will divert the attention of their individual patrons. The sympathies of the Dental Association are much aroused for those who have been, and may be, hurt. But let me assert, in all solemnity of TRUTH, that the dentists of this clique are much more distressed with the conviction that the great masses of the people are delighted with the Laughing Gas.

The dentists who are not using this agent care nothing about any person who has suffered while having teeth extracted under it, for it is an established fact that not one in twenty suffer any pain from extracting teeth, and if pure nitrous oxide gas is properly administered, no constitutional injuries can follow its use; and that I tell the truth here of their real feeling will be verified by seeing in a few months that all will have this gas in their own business. The two deaths of which they speak are false. No such truthful history can be produced. The gentleman's imagination of the disgusting bag from which all inhale the gas, is purely visionary. The inhaling bag is kept purely cleansed by the use of disinfectants and cleansingwashes, and I would never offer to my patrons an inhaler that I would not cheerfully use myself. The simplicity of the manufacturing and administration of this agent, of which they speak so lightly, may be judged from their own admission, which is that they would give it if not for the great trouble and cost.

What do these fellows care WHO ARE *distressed*, so they maintain the integrity of their business! Are the good minded people going to be hoodwinked into the idea that these uncharitable men will care for anything more than the extra amount of trouble and expense! This new method will bring in a class to maintain an equilibrium in trade.

It is the satisfaction I give my patrons, *not the dissatisfaction*, in which they are most concerned, and precious little do they care for the honor and dignity of the society and profession, or they would have been present in peaceable times to maintain the cause and perpetuate the society, in place of absenting themselves for nine months, until it was no longer considered an organized body, and then they only re-assembled through a laughing gas *mania*, of which they 'have reference,' in their article, when mentioning the insanity from laughing gas. I could count about twenty lunatics in this vicinity, but they are all dentists who have never used the gas nor seen it used. So far as quackery is concerned, if I was ever a skilful Dentist, I remain so, for I never gave better work and satisfaction, than at this time. In reference to Col. Elder's case, he is a gentleman whom I have never seen or heard of, 'till I saw his name mentioned in the papers, in connection with laughing gas. Of the other cases of which they speak, I have no knowledge. So far as being a martyred Dentist, the case is too transparent to need comment. I will be very grateful and careful to have the continued confidence of the people.

A Broken Down System.

There is a disease to which the doctors give many names, but which few of them understand. It is simply weakness—a breaking down of the vital forces. Whatever its causes (and they are innumerable), its symptoms are in the main the same. Among the most prominent are extreme lassitude, loss of appetite, loss of flesh, and great mental depression. Indigestion an a *Stomach Cough* are also frequently conco, itants of this distressing state of body and mind. The common remark in relation to persons in such a condition is, that they are consumptive. Now, what these unfortunates really want, is *vigor—vital strength*, and as certainly as dawn succeeds darkness they can recuperate their systems and regain perfect health by resorting to Hostetter's Celebrated Stomach Bitters. It is as clear that a life-reviving Tonic is required in such cases, as that the dying flame of an empty lamp requires to be revived with a new supply of oil. Perfectly pure and innoxious, containing nothing but the most genial vegetable extracts, and combining the three gra ele ments of a stomachic, an alterative, and a genial invigorant. Hostetter's Bitters are suitable to all constitutions, and are as applicable to the diseases and disabilities of the feebler sex as to those of men.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Fourth street.

Of P. T. It is also worthy of note that the clergyman informed that to get Gold Pens, Albums, Wallets, &c., the best place to purchase would be at Pittock's, opposite the Post Office.

An Oriental Illustration.

Once upon a time, a great eastern potentate was assured by the magicians and soothsayers of his Court that he should live forever, but on one condition, and that was, that he should never, under any circumstances, lament his condition, or wish for any attribute that heaven had not accorded him. For many years he enjoyed all the happiness that heart could wish, youth seemed perennial with him, and there was nothing in the world he could desire. But it chanced one day, while hunting, he came to a wide, deep stream, wherein certain ducks were swimming, and which, in the heat of the chase, he resolved to cross. As he plunged his horse into the stream the water came up over his feet, and he unthinkingly exclaimed, "Would I had the feet of a duck that I should be unharmed by the wet." A few minutes after he became unaccountably faint, and had to be conveyed to his palace, where he speedily fell into a fever, and so died. The magicians said it was because he asked for the feet of a duck, but certain doctors declared it was the sudden chill to his system. It unquestionably *was* the chill, and this he never would have felt if Professor Olmstead's wonderful Leather Preserver, which renders ordinary boots perfectly water proof had been known in his day. We are more fortunate than he, and can insure ourselves against damp and chill by procuring this extraordinary and useful article at Joseph Robinson's, No. 61 Market street.

Dr. C. Sill, 246, is Not Dead,

As false reports would have it; nor is his health in the slightest impaired from the gas. He continues taking the laughing gas, as he has always done, and would not offer to his patrons anything which he would not cheerfully take himself. The object of the Dental Association is to alarm the people, so that they will fear the use of the laughing gas. And thus at a small expense and little trouble, destroying the influence of the safest and best remedy that God ever gave for the relief of afflicted man. I, having been the first to administer this agent in Pittsburgh, have drawn about me hosts of friends, and my enemies are "spoiling" as they see it in this light; and are much more distressed at the successful than unsuccessful cases—which do not exceed one in twenty. The nineteen giving perfect satisfaction. And in no case has any person died, or been injured, from laughing gas taken from me. The report of two deaths in New York is also false.

Interview With the President.

WASHINGTON, March 9.—The committee of the Maryland Legislature, headed by Speaker Frazier, had an interview with President Johnson yesterday to present the resolutions adopted by the Legislature endorsing his policy for the reconstruction of the Union. The President made a brief reply, reiterating his previous declarations in regard to reconstruction, and said he had only to thank them for the encouragement given by the resolutions. He hoped his future acts would show that his confidence has not been misplaced, and that the passers of the resolutions are not mistaken in the approval they speak of. He said, it is not necessary for me to state the principles I have adopted for my guidance. They are understood, and there can be no mistake as to the position I occupy. Persons who act upon principle, and understand the principles they act upon, cannot disagree, and must act together, and whatever their starting point in acting upon such principles, they, however, involuntarily sometimes will approach each other, and the converse of this proposition is also true that whenever they disagree upon principle, the thought to me is, that I have acted upon principle ever since my earliest advance into public life, there has always been with me a pure, fundamental idea regarding the nature of this Union, and I have never departed from it. It is also gratifying to me, that after the ordeal through which we have passed, that through the chaotic state of the public mind, this idea still lived, and that these principles are again enunciated, and that there is still an apprehension of them around and about which there seems to arise a crystalization and a formation of men that will in future sustain the country and the principles on which it lives.

Internal Revenue Operations in New York—Fearful Frauds.

NEW YORK, March 9.—The *Times* publishes the operations of the Revenue agency of the Internal Revenue Department in this city, during the past year, of which Mr. Alex. N. Lewis is chief. The article states, that owing to frauds, &c., up to the period when this office was established, in October, 1864, not more than one third of the Revenue due the government had been either assessed or collected in the cities of New York and Brooklyn. There was collected during the fiscal year ending June 30th, 1864, $13,781,263,43; this office commenced its labor in October, 1864, and its inspectors were set to work tracing and convicting those who were withholding money due the government, and informing tax payers of their duties under the law, and urging a strict compliance therewith.

The increased returns for the year ending June 30, 1865, are due in a great measure to the labors of this office. Frauds were discovered by the local agents of the Bureau of fearful proportions. The government was cheated by all classes, and not unfrequently by men loudest in pretensions of loyalty. An example is cited of the result of an investigation into the monthly returns of a large house engaged in the stock and gold brokerage business, which showed a deficiency in the returns of over $44,000,000. By direct application the local agency has turned over to the government taxes, otherwise withheld, to the amount of $800,000.

From Nashville—Brownlow's Warning—Suicide—Fatal Accident—Texas Quarantine.

NASHVILLE, March 8.—A Nashville telegram sent by Capt. Hunter, from Grenada, Mississippi, to Gov. Brownlow, urging the latter to beware of assassination, is believed to be a canard, gotten up for political purposes.

Edward Ryan, of Laselle, Illinois, committed suicide by shooting himself near the Chattanooga depot.

The railroad here has ceased to receive freight for points south of Chattanooga, and the blockade will probably continue for several weeks.

Lieutenant Wilcox, of the 13th Colored Infantry, while removing the flagstaff from his former headquarters, fell seventy feet, killing him instantly.

Galveston dates of the 29th, say that quarantine has been ordered in all Texas ports on account of an official notice of the prevalence of cholera in the West Indies.

Movements of Gen. Grant—Heavy Gale—Sinking of a Ferry Boat.

NEW YORK, March 9.—Lieut. Gen. Grant, accompanied by Gen. Comstock, Cols. Parker, Bodeau, and Hudson, and Majors Webster and Brenneman, United States Army, arrived at the Metropolitan last evening. After dining, the General took the night train for Washington.

A heavy westerly gale has prevailed for several days along the Hudson, accompanied by a freezing atmosphere, strengthening the ice which was greatly weakened by the previous warm weather, and retarding the opening of navigation considerably.

Last night the ice cut a hole into the hull of the ferry-boat "Air Line," which plies between Tivoli and Saugerties, while the vessel was lying at the wharf at the latter place, causing her to sink.

From Texas—Freedmen Working Well—Quarantine, Etc.

NEW ORLEANS, March 9.—Texas letters represent the freedmen continuing steady and working well. The negroes are generally disposed to remain with their former masters, in that part of the State where neither negro troops nor the Freedmen's Bureau are located.

Gov. Wells and Gen. Canby have proclaimed ten days minimum quarantine on vessels from the West Indies and the adjacent Mexican and Central American coast.

The British steamer Peruvian, from Liverpool, has arrived.

The difficulty between the Mobile cotton factors, brokers and buyers has been settled by a committee of conference appointed by the Chamber of Commerce. Regulations were adopted relative to sampling cotton and the disposal thereof.

Sporting Matters.

NEW YORK, March 9.—An assembly of sporting men, numbering two hundred, assembled at the Hone House last night, upon the occasion of the closing of the entries for the purses offered by Mr. Crocherone, the proprietor of Fashion Course, to be trotted for during the ensuing spring and summer season. The most important purses filled were as follows: A purse of $300, mile heats, best three in five, under saddle, for horses that have never trotted better than 2:28; the entries of the Fenian Chief—formerly Black Flarry—Dan Mace and Stark, a purse the same as No. 4; but for $500 and in harness: the entries of the Vanderbilt, Stonewall Jackson and Dan Rice; the third entry the same as No. 5; to wagons—entries—Panic, Stonewall Jackson and Dan Rice.

General Hitchcock Injured—The Tax on Cotton.

NEW YORK, March 9.—The *Commercial's* special states that General Hitchcock was knocked down by a runaway horse in the street to-day and severely bruised but, not seriously injured.

The *Post's* special says: The Ways and Means Committee has been engaged all day in considering the proposition to lay a tax on cotton. The recommendation of the Revenue Commissioner in favor of the tax is likely to be adopted.

Case of General Mussey.

NEW YORK, March 9.—General Mussey thus explains the statement that a suit has been brought against him to recover a deficiency in his accounts: "He had vouchers covering the disbursement of $28,000 stolen from him. These have only recently and partially been recovered, and until these missing vouchers are supplied he is technically indebted to the government. The Secretary of the Treasury has assured him that he shall have ample time to procure duplicates, and no imputation of abstraction has been made against him."

Confiscated Property.

WASHINGTON, March 9.—General Augur, commanding the department of Washington, has issued a general order saying, to allay uneasiness and prevent litigation concerning titles to lands and other property confiscated and sold by the United States Government during the recent rebellion, it is declared that no person, within the limits of this department, whoever has duly acquired title by which sales shall be disturbed, in the possession or control of the same, by the action of any State or municipal courts, the action of the Federal courts in relation to such property will alone be regarded.

REPORT OF BOARD OF IMMIGRATION.

Internal Revenue Circular.

CRIMINALS PARDONED.

Division of the Arlington Estate.

&c., &c., &c.

WASHINGTON, March 9.—The annual report of Mr. Bryer, chief of the Bureau of Immigration, says: The propriety and advantage of placing the whole subject of immigration under the charge of officers of the Government have been fully vindicated by the results. A draft of the bill has been submitted to Congress in order to correct abuses and prevent emigrants from being victims of sharpers, and intimidated into fraudulent contracts. The total amount of passengers who arrived in the United States during the year ending December, 1865, amounted to 287,297, of whom 225,939 landed in New York and 3,330 in California. All countries are represented; 112,000 were from Great Britain and nearly 84,000 were from Germany.

The Commissioner of Internal Revenue has issued a circular concerning the assessment of a tax on legacies, distributive shares and successions, as through the failure of Assessors and Assistant Assessors to exercise due vigilance, much revenue justly due is lost to the Government. Where the whole amount of personal property of an estate payable to legacies or distributives, exceeds the sum of $1,000 in actual value, the same is subject to duty or tax, without regard to the amount or value of each legacy or share, but when the amount does not exceed $1,000 no tax is chargable.

The President to-day pardoned the following persons, convicted of criminal offense: Thos. Dean, a Deputy Provost Marshal, convicted in Michigan, for robbing the mail, and sentenced to fifteen years imprisonment; Geo. E. Buckley, convicted of issuing counterfeit fractional currency, and sentenced to two years imprisonment, and Joseph M. Williams, convicted in the State of Indiana, of robbing the Post Office.

The Superintendent of the Freedmen's Villages, has been instructed by Major General O. O. Howard, to divide the Arlington estate into five acre lots, to be rented, on written agreements, to freedmen, the rents to be paid by harvest. About twenty acres of it is to be a garden for the dependents of the Freedmen's village. This estate is not confiscated property, and therefore cannot revert to the heirs at the death of the owners, but it was sold for treason, and purchased by the Government for the purpose to which it is now being applied.

Brigadier General C. H. Howard has issued a special order, restoring to Joseph Forrest his property, held by the Freedmen's Bureau, in St. Mary's county, Maryland, except the Sandgate's farm, so-called, of one thousand one hundred acres, more or less, subject to the provisions of circulars No. 8, 15 and 20, of the Freedmen's Bureau.

It is stated that there have been two thousand and seventy persons pardoned in the State of Virginia, and four hundred and eighty-two in North Carolina, by the President, under the twenty thousand dollar clause, since the issuance of the amnesty proclamation.

It is estimated that the Fourth Auditor's Office has, during and since the rebellion, adjudicated prize claims affecting over 1,200 captured vessels. The amount involved in such settlement was about twenty million dollars.

There are in the vaults of the Treasury Department $14,240,000 in five dollar notes. The total amount of the old denominations is $110,000,000. The Treasurer will receive in a few days from the Bank Note Company $300,000 in one and two dollar notes of the greenback issue.

Disgraceful Conduct of Colored Soldiers

LOUISVILLE, March 9.—A party of eight discharged colored soldiers were aboard the steamer Abeona, bound for St. Louis, and claimed cabin passage, which the clerk refused. The soldiers became very disorderly, one of whom insulted a white lady. The watchman interfered, when one of the soldiers fired upon him, whereupon the deck hands threw the negroes into the river. They were rescued without damage and taken away by officers of the Freedmen's Bureau.

The Gee Court Martial.

NEW YORK, March 9.—The *Tribune's* reporter of the Gee Court Martial, at Raleigh, writes that the trial, it is estimated, will cost the government at least $100,000 before it is at an end. The testimony, thus far for the prosecution, is replete with horrors only equalled by the developments of the Wirz Court Martial.

Disappearance of a Defaulter.

NEW YORK, March 9.—There is great excitement in Fall River, Mass., over the sudden disappearance of one Nathan H. Buffenton with unpaid bills left behind to the amount of $60,000.

GREAT EXCITEMENT IN CANADA.

ENROLLMENT OF THE MILITIA.

MEETING OF PARLIAMENT CALLED.

PROBABLE SUSPENSION OF THE HABEAS CORPUS.

MARTIAL LAW TO BE PROCLAIMED.

Reinforcements from England.

&c., &c., &c.

NEW YORK, March 9.—Toronto special dispatches to the *Herald* to-day say that all the Canadian militia are being enrolled, and it is expected that they will be called out immediately. Volunteers in companies and squads are rallying from all the back towns for the defense of the frontier. Over two thousand volunteers have arrived here last night, and are boarding on the citizens. The people are fully aroused. No man shirks duty, although a few have been arrested through a misconception of the order calling them out. All the railways on the line of the frontier are keeping engines fired up to run off trains, and it is estimated that thirty thousand troops, now armed, are ready to march, if invasion takes place. The authorities are sanguine of their ability to drive back and defend their homes against any Fenian invasion. All the troops have been drilling since two o'clock this morning. A full supply of ammunition has been issued to the troops, and railway trains are made up and ready to move them at a moments notice to any point of attack.

Many reports are current, and one pretty generally believed, is that Parliament will be called to assemble immediately and the writ of habeas corpus will be suspended, and martial law proclaimed before the 17th of March. The government has taken possession of the Montreal telegraph line. The *Globe* this morning makes the announcement that the government received information that on St. Patrick's Day a number of Fenians will cross the river, join in the processions in the cities and create local disturbances to attract the attention of the military, while the main force will strike at different points on the frontier.

The *Globe* calls upon President Johnson to interfere. It says the people of Canada are abundantly able to give the ruffians a warm reception, but it is a poor repayment to the Canadian government for its action during the rebellion in the Southern States to be now compelled to spend money and blood in resisting outrages planned in the States of the neighboring republic.

The city papers this morning contain two columns of special dispatches from all parts of Canada, giving news of the military preparation, from which it appears that every town and city is turning out in full strength.

As fast as the troops arrive they are organized into Battalions. They are to be drilled five hours per day. To-day there was a turn out *en masse* of the citizens to make a demonstration of strength.

From the alacrity with which the call has been answered, it seems that annexation to the United States and all other differences of opinion succumb to the dangers of the hour. The excitement is hourly increasing, and the troops are held in readiness for immediate embarkation. Volunteers get twenty-five cents and rations per day.

The Orange *Watchman* of to-day says that the Fenians of this city will walk on St. Patrick's Day armed with pikes and revolvers, and it calls upon the Mayor to prevent their walking. It is believed that the influence of peace loving citizens will restrain the more violent men, and that the procession will be abandoned. The *Watchman* also asserts that Bishop Lynch has declared his intention of leaving Canada to avoid the danger and responsibility of a battle, which may occur on the Irish national day.

A special to the *Times*, dated Ottawa, March 9, has the following: Parliament has been called to meet April 10th. Nova Scotia and New Brunswick will immediately accede to a confederation with Canada.

Large reinforcements will be sent out from England as soon as navigation opens, to meet the threatened Fenian raids.

English gunboats have been ordered to the fishing grounds in view of the abrogation of the reciprocity treaty.

The Government buildings and banks in Ottowa, are placed under guard at night.

Arrangements have been made for reciprocal free trade between Canada and the British West Indies, and a direct mail line from Montreal thither, will be immediately established.

The *Herald's* special from Toronto on the 8th—this evening—says: The excitement is unabated in the Provinces. Troops are still pouring in from the rural districts by hundreds. The moment they arrive they are organized into companies and squads for drill. So great has been the drain upon some large business houses of the city that they have been compelled to suspend business during drill hours. The news from the frontier indicate no cause for extraordinary movements, but the military authorities and the whole people approve the action of the government in preparing for an emergency. Many assert that the hubbub is got up for political reasons—to unite the opposing factions so that the confederation may be carried next month in Parliament. No troops have been sent to the frontier. If this is really the object of the government it will probably be successful, for all parties seem to have forgotten political differences, and rally for the united defense.

NEW YORK, March 9.—The leaders of Roberts' branch of the Fenian brotherhood are now making active preparations for an immediate campaign. Where the blow will be struck, which is designated to lead the way for the attempted independence of Ireland, is at present a mystery, and will remain so till the Fenian forces make their appearance on British soil.

Large contributions of arms and money are now being received by President Roberts, and it is believed that in less than two months an army will be in the field. A deputation of officers representing old divisions of the army of the Potomac called at Roberts's headquarters to-day, and presented a resolution which they had adopted at a previous meeting, in which they pledged themselves to unsheath their swords in the cause of Ireland, and offered their services to Gen. Sweeny. After the resolution was presented, President Roberts and Gen. Sweeny thanked the officers in behalf of the organization, and assured them that their services would be required at no distant day. The deputation represented a large number of ex-officers of the army of the Potomac.

CANADIAN FRONTIER SMUGGLING SUPPPESSED.

Mail Routes Opened.

THE ASSASSSINATION OF PRESIDENT LINCOLN.

PETERSON'S BILL FOR DAMAGES

Incident at the Treasury Department.

NEW YORK, March 9.—The *Tribune's* Washington special says the Commissioner of Customs yesterday received highly encouraging reports relative to the suppression of smuggling on the Canadian frontier. Large seizures have recently been made, and the measures now being taken by custom officers to prevent the anticipated increase of smuggling after the termination of the reciprocity treaty, it is believed by the Commissioner will be sufficient to preclude the possibility of its revival to any great extent.

The *Herald's* Washington special says thirteen mail routes were opened yesterday in Virginia and Maryland.

The fractional currency issued yesterday reached nearly $90,000.

NEW YORK, March 9.—The *Tribune's* Washington special thus speaks of Mr. Peterson, whose residence, opposite Ford's Theatre, was forever made an object of reverence by the American people, from the accidental circumstance of its sheltering the dying form of President Lincoln, on the 14th of April, last. He has finally received from the Treasury, the amount of his bill charged for the trifling damage done to his bed linen and furniture on that fatal occasion. Among the items charged in the bill, was one of one hundred and fifty dollars for injury done his carpets; fifty dollars for personal services; two dollars for gas, and a large number of similar charges, amounting in the aggregate to two hundred and ninety-three dollars and fifty cents. The modest and patriotic partisan also rendered another charge for loss of time for several weeks after the assassination, in exhibiting the room in which the President died. The validity of this latter claim could not be fully realized by the Secretary of War, who ordered it to be disallowed.

A Washington special says that a gentleman brought to the Treasury yesterday a large bundle of partially burned Treasury notes, for redemption. They were given to one of the lady clerks to separate and paste upon sheets, so as to determine their total value. The lady succeeded in reproducing nearly $2,000 more than the anxious owner had been able to do, and he evinced his appreciation of her skillful dissection by a presentation of $160.

THE JOYCE CHILDREN MURDER.

The Murderer Discovered.

NEW YORK, March 9.—The Boston *Herald* has a long account of the discovery of the murderer of the two children, Isabella N. and Jno. S. Joyce, in Bussy's woods, West Roxbury, on the 12th of June 1865. He was found to be a convict in the State prison, who had been sent there for a burglary committed in Worcester county shortly after the murder. His strange conduct when arrested led the officers to think he was a hardened criminal, and his subsequent boasting of large deeds performed by himself, together with some of his unguarded expressions, gave the clue which, being followed by two Worcester county officers, has fastened the murder alluded to almost undeniably upon himself. His partial confessions, with the corroborative evidence obtained, leave no doubt in the minds of the officers of his guilt. His sobriquet is "Scratch Gravel," and his right name is Charles Aaron Dodge. He is a native of Massachusetts, but has been a rover for fourteen years, being now twenty-seven years of age. He confesses to having hunted Indians in Florida; that he was sent to prison for life for murder in South Carolina, was pardoned, entered the rebel army, was captured on Morgan's raid into Ohio and Indiana, paroled, afterwards enlisted in a Massachusetts regiment, deserted, joined the navy and served on several gunboats.

KENTUCKIANS VISIT THE PRESIDENT.

Freedmen's Bureau Denounced.

THE PRESIDENT'S RESPONSE.

WASHINGTON, March 9.—A delegation from the State of Kentucky have presented to President Johnson the proceedings of a mass meeting, held at Frankfort, in that State, indorsing his veto message.

Mr. Dawson made an address, in the course of which he said the presence of the agents of the Freedmen's Bureau in Kentucky only tended to produce demoralization and dissatisfaction among the negroes, annoyances and inconveniences to the white citizens, and was productive of no good results. The people of Kentucky and the laws of the State, if left to themselves, will secure the negro in all his rights of person and property. There are more cases of wrongs by negroes upon white persons in the State, which go unpunished by the civil authority, than of wrongs by white people against negroes. He would not disguise the fact that there has been, and there still is some impatience and dissatisfaction felt by the people at what they regard as unkind suspicions and discriminations against them, upon the part of the government which they sustained throughout the late terrible conflict, at such sacrifices as only they and those similarly situated can know.

The President briefly responded, tendering to those whom the delegation represented, and to the State of Kentucky, his unfeigned thanks for the kind expressions and manifestations of confidence in him personally and the endorsement of the policy which shall control his administration.

It was peculiarly gratifying to receive these assurances at this particular time, and he trusted that results would show that the confidence thus reported was not misplaced and would never become a matter of regret upon the part of those who gave expression thereto. The present is regarded as a most critical juncture in the affairs of the nation, scarcely less so than when an animated and organized force sought to overthrow the government; to attack and attempt to cause a disruption of the government by armed combination and military, is no more dangerous to a nation than an attempt to revolutionize and undermine it by a disregard and destruction of the safeguards thrown around the liberties of the people in the Constitution. Our stand has been taken; our course is marked out, and we shall take no step backward in this matter; no other or higher evidence of our purpose in this regard can be given than has already been furnished. In the future, as in the past, we shall endeavor, in good faith, to make the administration of affairs of the government conform to the Constitution in its letter and spirit. Therein is the only guarantee to the liberties of the people. It is hoped by an adherence to this rule to remedy, ere long, all the irregularities and inconveniences to which the people have been subjected. Again do we assure you that these demonstrations of confidence and assurances of support upon the part of the people are exceedingly cheering to us; that we are grateful for, and properly appreciate them, and that our most earnest wish is to discharge the trusts confided to us so as to merit them.

FROM NEW ORLEANS.

A REBEL NOMINATED FOR MAYOR.

Ex-Confederate Officers in Mexico.

NEW YORK, March 9.—The *Tribune's* New Orleans special says: The Democratic Convention met last night and nominated unanimously John T. Monroe as their choice for Mayor. Monroe was the rebel Mayor when General Butler captured the city, and was subsequently placed in close confinement for nearly two years, for refusing to take the oath of allegiance to the United States Government. He is accused of persecuting and imprisoning loyal men for refusing to join the Confederacy, and as he has not as yet received Executive pardon, he will in all probability be elected.

A letter from the City of Mexico to the 18th of February, state that Gen. Joe Shelby, Col. M. O. Greene, Major Hunter and Major Gray are in that city. Maury and General Early are also there. Gov. W. H. Allen still edits the Mexican *Times*. Magruder is at Cordova on a salary of three thousand dollars a year from the Maximilian government. Captain Bice and Tom Reynolds are farming for Gen. Slaughter, having been exposed for cotton frauds, but will return to the United States. Most of the ex-Confederates are penniless.

Files by the Java gives interesting speeches in Parliament on the neutrality laws and re-opening question of the Alabama indemnities. Mr. Labouchere in calling attention to the ineffective character of the British neutrality laws, reviewed the question of the English complicity in the fitting out of the pirate Alabama and her companions, and elicited from several members strong extracts to the government to re-open the Alabama claims, and have the subject satisfactorily settled by arbitration.

To these entreaties the Attorney General replied on the part of the government by intimating his willingness to consider the question on friendly communication with the United States government. He said far be it from him to say if the friendship and good feeling of the nations depended on money, and that there were not greater interests concerned, that it might not be worth while to link money considerations between themselves and the United States, but this was not a question of money. It was a question which involved great principle, and it was upon that account that they took the position which they did. If they had admitted the principal of their claims, it might have involved England and all other nations in endless claims of the kind. With regard to the future, almost every member who had addressed the House had the first great importance of dealing with this subject, not alone, but in consort with those nations whose interests were common with those of England. (Hear! hear!) He did not say that it would be impossible, but would certainly be difficult to deal with it otherwise. Undoubtedly Her Majesty's government had been most desirous to consider this question in a friendly communication with the United States and other governments.

INTENSE FENIAN EXCITEMENT.

Immediate Invasion of Canada Expected.

10,000 CANADIAN MILITIA RAISED.

Preparations Against Surprise.

GENERAL SWEENY'S SUPPOSED PLAN.

NEW YORK, March 9.—Immense excitement prevails in Fenian circles in this city to-day. It is thought, undoubtedly, that a demonstration will soon be made against Canada, by General Sweeney. It is said he has already large stores of arms, munitions of war and transportation at his command.

A special correspondent state that he understands the Governor of Canada has been urged to call out the militia, to be stationed at Ogdensburg, to prevent raids from the States. All sorts of exaggerations and rumors are current on the streets.

MONTREAL, March 9.—The call for ten thousand men of the Canadian militia for active duty, made late on Wednesday evening, was enthusiastically responded to, and early on Thursday morning news was received from all parts of the country that their quotas were ready for active service at a moment's notice. There seems to be no doubt that three or four times this number could be had at a day's notice. The whole volunteer force of this city paraded last evening. Strong guards were posted at all the armories, and patrols kept moving through the city at night. Every preparation is being made to guard against any Fenian surprise.

TORONTO, C. W., March 9.—The response, yesterday, for volunteers from all parts of the country, was very enthusiastic. A much larger number offered their services than were required.

The *Globe* of to-day has a report that the plot of the Fenians is for a body of them to cross into Canada to take part in the public processions on St. Patrick's Day, who will disturb the peace and distract attention, while armed Fenian bands were making raids on the border.

Trial for Wife Murder.

HARTFORD, CONN., March 9.—The examination of B. H. Green, President of the Connecticut Fire Insurance Company, who killed his wife in November last by cutting her throat with a razor, and then attempted to take his own life with the same instrument, commenced in the Police Court to-day, and will continue to-morrow and perhaps Monday. The defense is insanity, and will unquestionably be sustained, the testimony all leading that way.

River and Weather at Louisville.

LOUISVILLE, March 8.—River still falling, with seven feet eight inches in the channel. The weather is cloudy and moderate.

Amusements.

THEATER.—To-night, the sixth of the engagement of Mr. and Miss Couldock, the great serio-comic drama of Old Phil's Birthday will be presented, in which both of these eminent actors will appear. The evening's entertainment will conclude with the four-act sensation drama of the Gipsy of Grenada.

This afternoon, a grand matinee will be given to the little folks, when the grand fairy spectacle of Cinderella, or the Little Glass Slipper will be presented.

OPERA HOUSE.—To-night is the last of the engagement of the magnificent Helen Western, upon which occasion she will appear in two sterling plays, the Spy of St. Marc, and the Military drama of the French Spy. The engagement of Miss Western has been eminently a successful one, and we doubt not its close will be as brilliant as its commencement.

This afternoon the beautiful play of Fanchon, the Cricket, will be presented at the matinee for ladies and the little folks.

CITY AND SUBURBAN.

Pittsburgh M. E. Conference.

SECOND DAY.

Conference met at the usual hour—Bishop Baker in the chair. Religious exercises conducted by Rev. M. L. Weekly. After the reading and approval of the Minutes, the eleventh question—"Were all the Preachers' characters examined?" was taken up, and the Presiding Elder and the ministers of the Uniontown District were examined, and their characters passed. The further examination of ministerial character was suspended to consider the report of the Committee appointed last year to prepare a "Plan for Graduating the distribution to Conference Claimants in proportion to the years of service, as well as their several necessities, Rev. Dr. Holmes, Chairman of the Committee, made quite a lengthy speech, showing the benefits of the Plan. A very animated discussion took place, and able, spicy speeches were made by a number of the prominent members of the Conference. Some difference of opinion ensued upon portions of the Plan, but no material change was made in the original draft. In the warmth of discussion remarks were made, which, to say the least, were not very courteous.

The report being quite lenthy we can only give some important points, which will indicate its character. The first section provides that no preacher shall be a claimant on the fund hereafter provided, who has not been an effective preacher for five consecutive years. The second and third sections provide for the sum to be appropriated to claimants as follows: Claims of superannuated preachers after five consecutive years, $50—and shall annually increase $10; ten years $100; fifteen years $150; twenty years $200; and after rendering twenty years service his claims shall annually increase ten dollars until it reaches $300 per annum; and this is the largest annual claim that any shall have on this fund. Fourth and fifth sections provide that the widows of ministers shall receive the same annuity to which their husbands would be entitled to. Sixth section provides that no transferred preacher shall have a claim on the fund until he has been an effective member for five consecutive years. The remaining sections state conditions to govern the carrying out of the Plan, etc.

Immediately after the discussion of the report, the Bishop announced to the Conference the transfer of Rev. Dr. James Drummond, from the West Virginia to the Pittsburgh Conference. The Doctor was formerly a member of this body, and attained honorable distinction. He was received by a standing vote and unanimously restored to his former standing, as a claimant upon the funds of the Conference.

Rev. Dr. Nesbit, editor of the Pittsburgh *Christian Advocate* reported on behalf of the Committee on Education, to whom papers of the various institutions, under the patronage of the Conference, had been referred. The report shows that the endowment fund of Allegheny College aggregates $153,619,40. Besides these fine endowments, the College has increased its educational facilities and powers, by important additions to its library, by erecting three extensive and valuable cabinets, and by many costly instruments belonging to the chemical and philosophical apparatus. By the munificence of Hon. C. V. Culver, a fine Boarding Hall has been erected, at a cost of $35,000. Revs. W. A. Davidson and J. W. Barker, together with A. Kramer, of Pittsburgh, and Aultman, of Canton, were appointed to represent the Conference in the Board of Control. Drs. D. L. Dempsey, I. C. Pershing, and O. N. Hartshorn, Mr. J. Perchment, of East Liberty, and others, were appointed a Committee of Visitation to the College.

The Trustees of the Pittsburgh Female College report the value of the property of this institution at $100,000. Since Rev. Dr. Pershing assumed the Presidency, it is $30,000 better off now than it was then, a period of six years. The College is now nearly eleven years old, and is at present educating about four hundred students yearly. Very great improvements are making in securing additional inducements and powers of collegiate culture. It is expected during the centenary year not only every dollar of indebtedness will be removed, but a generous endowment fund be secured. The prosperity of the College is remarkable, and shows how eminently fitted Dr. Pershing is for the place he occupies. Revs. E. B. Snyder, J. Horner, W. P. Turner T. McCleary and others, were appointed a Committee of Visitation to the College.

Mount Union College has property to the value of $121,992, and also pledges on endowments, aggregating $70,440.40. Of this latter sum $36,000 are in the way of donations, and $34,000, as subscriptions for scholarships. Committee of Supervision: Rev. J. Williams, Drs. Baird and Cox. Visiting Committee: Revs. Dr. C. A. Holmes, J. E. Deens, W. A. Davidson and J. W. F. White, Esq., and others. President Hartshorn appointed agent for the Press.

Beaver Seminary and Institute represented in a good condition and free from debt, except a small balance of $300. Revs. W. H. Locke, J. R. Mills, and H. Sinsbaugh, together with J. E. Shaffer, M. D., J. H. Campbell and W. Miller were appointed a Visiting Committee.

Revs. R. Boyd, J. R. Brockunier, Z. H. Cosson, W. Tipton, P. M. McGowan, P. Cook, W. Athey, H. J. Clarke, J. Phillips, A. Jackson, C. Morrison, E. Burkett, J. H. Ebbert, B. F. Sawhill, H. R. Kern, J. Monroe, J. L. Read, H. Crea, T. Davidson, superanuated preachers, were examined, passed, and on motion, their relation was continued.

Revs. J. McIntyre and T. Winstanley on the superanuated list last year were made effective, after being examined and passed.

Committees were appointed to investigate charges against Messrs. J. W. Kessler and J. Cressman. Also the appeal of Rev. E. M. Holmes was referred to a special committee of thirteen.

Rev. W. Ewing, pastor of O. S. Presbyterian Church, Canonsburg, Rev. D. I. K. Rhine of the M. P. Church in Washington, and J. W. Walton, Lay Steward from the McConnellsville District, were introduced to the Conference.

A number of ministers have arrived since the Conference opened. Visitors from different sections are flocking in to witness the proceedings. As usual a number of the prominent churches are to be supplied with new pastors, among the number is Liberty street church in your city, Birmingham, McKeesport, East Liberty and Wilkinsburg churches. Rev. W. A. Davidson, whose pastoral term has just expired at Liberty street church, is the Chairman of the Board of Stewards, the most important committee of the body. Have just learned that Rev. W. B. Watkins, pastor of Trinity M. E. Church in Pittsburgh, since his arrival here has received an invitation, signed by a number of persons connected with Washington College and prominent citizens of Washington, to deliver his lecture on the "Use, Abuse and Beauty of English Words." The Conference reporters, Messrs. Boyle and Locke, are well qualified for their work, judging from the number to-day of the daily, containing the first days' proceedings. The former, it will be remembered, took an active part in the last Presidential canvass. The latter was chaplain of Colonel Coulter's regiment during the rebellion. He is a fine writer and has had some editorial experience. Rev. John Grant delivers a discourse this evening in the Presbyterian church, and Rev. W. Lynch occupies the pulpit of the M. E. Church.

The Williams Process in Philadelphia.

Editors Gazette: In your issue of March 9th, I noticed in your local columns an article with the above heading, giving an account of the "Williams Process" in Philadelphia. There are a few facts which did not appear in that article which should yet be made known, in justice to me. In November last, Mr. Williams came to me and told me that he had no money with which to travel and introduce his patent, and that if I would travel with him, act as his agent, use my influence to introduce his "Process," and bear all expenses—his and my own—he would give me one-fourth of all sales effected. I agreed to do so. I went with him first to Harrisburg, then to Baltimore, in both of which cities we failed to do anything. We then went to Philadelphia, where I was well acquainted. I worked the "Process" about two weeks at the Kensington Iron Works, when the proprietors agreed to buy, if Mr. Williams would stay two weeks longer, and then let them try for two weeks if they could work it themselves, and agreed to buy the ingredients and give him $25 to bear his expenses for the two weeks he was to stay with them. The proprietors, after this trial, bought three counties. I bore all the expenses, except what they gave him, from the time we left Pittsburgh, until we returned together. Mr. Williams afterward went back and completed the sale, as he says, last week. When he came home he repudiated my claim, though it was *my* money and *my* influence, that got him his, because we had no written agreement. I will here state for his benefit, that I am perfectly prepared to prove the contract, and shall in a short time do so in Court.

HENRY B. COMER.

On Tuesday night at ten o'clock, fire was discovered in a stable in Titusville, and spread with great rapidity until it destroyed an entire block, composed of the Moore Hotel and fourteen other buildings, and involved a loss of nearly $100,000. The following is the list of sufferers: Lloyd's bracket manufactory, Elton's livery stable, owned by S. Mills, G. W. Hull building, occupied by Munson's oyster depot, Backus' saloon, Strauss & Gottshall's grocery, Russ & Rickett's grocery, A. Harris' saloon, livery stable, T. V. Kibble, tenant, S. Mill's owner, S. Marks' clothing store, Cincinnati bakery, J. Buser's shoe store, an Oil Exchange and the Moore Hotel, a large building capable of accommodating one hundred and fifty guests.

Sabbath School Fair.

The Fair given by the Sabbath School connected with the Central Presbyterian Church, Allegheny, on Thursday evening, for the benefit of the News Boys, was a decided success, and reflects great credit upon the originators of the entertainment. The attendance was quite large, and the citizens contributed liberally. The refreshments were most excellent, and the enjoyment, not only of the youngsters, but the "oldsters" was complete. We do not know what the actual receipts amounted to, but they were beyond the most sanguine anticipations of those who controlled the matter. Thus, drop by drop, as water fills the bucket, these benefits to the News Boys go towards building up an institution in our midst that will be an honor to our community.

City Mortality.

Dr. Geo. L McCook, Physician to the Board of Health, makes the following report of the interments in the City of Pittsburgh, from February 25th to March 4th, 1866:

DISEASES.—Peritonitis, 1; general debility, 1; puerperal pyæmia, 1; consumption, 2; disease of heart, 1; acute hepatitis, 1; diptheria, 1; acute meningitis, 1; congestion of lungs, 2; convulsions, 1; diarrhea, 1; consumption, 1.

Of the above there were, under 1 year, 5; from 1 to 2, 2; from 2 to 5, 1; from 5 to 10, 1, from 20 to 30, 2; from 30 to 40, 1; from 60 to 70, 2; from 70 to 80, 1, from 80 to 90, 1. Males, 8; females, 7; white, 15; colored; 1. Total, 16.

Assault and Battery.—Two men by the names of Lally and Michael Donahue, were yesterday before the Mayor, charged with aggravated assault and battery on oath of James Smith. It appeared in evidence that the three were engaged in a game of cards for liquor, when a dispute arose, and while Lally held Smith, Donahue beat him over the head with an iron poker in a most brutal manner. The defendants were committed to jail to answer at court.

Wild Cat Killed.—On last week, Mr. Sam'l Young, killed a large wild cat, on the hills of Mahoning creek, near a point known as the "Mill Seat." The animal was treed on a high stump, and when he shot it, the cat jumped about ten feet up in the air from its perch and fell to the ground. Though the ball passed through its lungs, it fought the dogs fiercely for a few moments until death.

The Weather.—The weather yesterday was highly suggestive of skating parks and sleigh rides. During the afternoon we were visited by a furious snow storm, which lasted about an hour. Towards evening, it became quite cold, and overcoats and big fires were at a premium. We still think that in case the managers let the water into the parks in proper time, there will be good skating for a few days yet.

The Leader.—This morning's *Leader* is before us, and as usual is filled with a great variety of interesting news, local and literary matter. We think, however, that our friend, "ye local" of the *Leader*, must have been washed in vinegar and rubbed dry with a nutmeg grater, he is so very acrimonious towards some of his brethren of the craft. Comrade, let us prescribe a little of Mrs. Winslow's Soothing Syrup as a sweetener.

DIED.

DOUGLAS—On Friday morning, the 9th inst., at 12 o'clock, of congestion of the lungs, MAY BOYD, youngest child of John and M. J. Douglas, aged 9 months.

THE REPUBLICAN PLATFORM.

While the resolutions adopted by the State Convention are moderate and conciliatory in tone, as they ought to be, they are firm and decided in sentiment. Both in manner and matter they meet our hearty approval.

Topics of high importance are before the American people and government for adjudication. These matters are not simply of temporary consequence, but pertain to the pith and marrow of personal liberty and popular institutions. They reach far on, in their influence, into future generations.

Upon these questions some diversity of opinion exists in republican ranks. In Pennsylvania, if the delegates to the State Convention may be accepted as fairly reflecting the sentiments of their constituents, not as much as we supposed. Now, the republican party can tolerate differences while it would be shameful to simulate agreement. A party that owes its inception, and growth, and triumph to free discussion, is not afraid to wrestle in argument, or to meet with contradiction from those whose integrity is not to be impeached.

We trust we shall be pardoned if we dilate on our personal satisfaction with the Platform. For some weeks past a few Republican journals, published in different quarters of the Commonwealth, have reproached us for Radicalism, charging that we were sowing dissensions in the party. If we had stood solitary and alone we should have given utterance to our opinions on the questions involved in the present complication of public affairs, and trusted to time for vindication. But, it so happens, that on these very points we are in accord with the prevailing ideas and feeling of the party, and our accusers are all guilty of schism, if guilt is implied in dissent from the majority. The Platform is as Radical as we are. If the making of it had been left to our free volition, we would have made it no stronger than it is.

Be it understood, moreover, that the same measure of dissent and discussion, inside the party, which we claim for ourselves, we concede to others. All we desire is, that those who lag behind the march of the party will be content to lag, and not make it an offense in us to keep up or even run before.

A POINT SETTLED.

The country was taken quite aback by confident declarations that the Freedmen's Bureau Bill was prepared upon consultation with the President, submitted to his revision and approved. Mr. C. A. DANA, of the Chicago *Republican*, dealing with this point, says:

"We are enabled to declare in the most positive manner, that the Freedmen's Bureau Bill was submitted to the President by General Howard previous to its being introduced in the Senate, a[illegible] JOHNSON warmly approved [illegible] It was afterward repeatedly [illegible] him in its amended form by Se[illegible] built, and changes were made in [illegible] more completely in his views. [illegible] was finally passed by Congress, it [illegible] privately approved by him in ever[illegible] ular. Indeed, the votes in its favor [illegible] Houses show conclusively that it wa[illegible] an Administration measure, and wa[illegible] regarded by all the President's sp[illegible] friends in each branch."

This must be regarded as putting th[illegible] question at rest. A sudden revolution was evidently wrought in the President's conception of the principles of Constitutional law bearing on the case. Such of us as failed to experience this new revelation must be pardoned if we yet stand where the President stood at first.

GEN. MEADE.

The Cleveland *Herald* complains of our allusion to the seemingly authoritative announcement by the *National Intelligencer* that Gen. MEADE had consented, at the request of the President, to take the democratic nomination for Governor of this State. We have a few words to say in exculpation.

1. Considering the relations subsisting between the editor of the *Intelligencer* and the President, it is most improbable the announcement in question was made without the highest authority.

2. It was currently reported at Harrisburg, during the sessions of the Democratic State Convention, and generally credited by well-informed politicians of both parties, that the President had offered Gen. MEADE leave of absence for three years, conditioned on his being nominated by the democrats for Governor and elected.

3. Gen. MEADE's denial is confined to the single point that he had not "*consented* at the request of the President" to allow his name to be used. What he failed to say, is quite as significant as what he does affirm. We accept his denial as strictly correct; but should be glad to have him make a new card, covering more ground.

HOOKER ON GEARY.

During the sessions of the Republican State Convention, Major General JOSEPH HOOKER telegraphed for the benefit of that body this judgment of the character and services of General GEARY:

NEW YORK, March 7.

Hon. J. W. Forney, Harrisburg:

My acquaintance with Gen. Geary is of long standing. I knew him in California, Mexico, and during the rebellion. It gives me great pleasure to bear testimony to his most excellent character as a military leader and as an honorable man. I know of no officer who has performed his whole duty with more fidelity than Gen. Geary.

JOSEPH HOOKER, Maj. General.

No military man in the nation is more competent to judge in such a matter than Gen. Hooker; nor has any one had larger opportunities of testing the stuff General GEARY is made of. Gen. HOOKER's opinion must be regarded as conclusive.

A VETO IMPENDING.

Immense indignation has been aroused throughout the State at the bill recently passed through the Legislature, virtually to surrender the control of the State to the Pennsylvania Railroad Company, under pretence of conferring certain franchises on the Philadelphia and Erie Railroad. Great pressure has been brought to bear on Governor CURTIN to interpose his prerogative to spare the Commonwealth this infamy. On Thursday night it was reported at Harrisburg that he would adopt this course. By all means, Governor, put on the Veto.

GEN. J. S. NEGLEY.—This meritorious officer, in a card which will be found in our columns to-day, announces himself a candidate for Congress from the twenty-second district. The General has many claims upon the respect and gratitude of the people of this city and county, the chief of which is found in the promptness, fidelity, courage and ability with which he entered upon and prosecuted the work of quelling the rebellion.

THE DEMOCRATIC PLATFORM was written with two ends in view—to console the rebels and spite the blacks. Loyal white folks have little attention accorded to them in it. National; is it not?

A NEW MANIFESTATION.

At an immense Fenian convention at Washington, D. C., a day or two ago, resolutions were adopted showing that the managers are at last comprehending the vulnerable point of Great Britain. See them:

WHEREAS, The British government, which has so long and cruelly oppressed Ireland, and is now sentencing the Fenians to long terms of punishment in the penal colonies beyond the sea, for no other crime than love of country, derives its financial and political strength wholly from its gigantic system of manufactories;

Resolved, That the Fenians of the United States enter into a solemn league and covenant for themselves, their wives, their sons and their daughters not to buy, wear or consume any article of British manufacture until Ireland is free.

Resolved, That the Fenians in the United States urgently call upon their representatives in Congress to see that the revenue laws of the United States are so framed as to discourage the importation of British goods; to exclude forever, if possible, from the benefit of the American markets, the merchants, manufacturers and capitalists of the British Government whose tyranny has forced the Irish in America to expatriate themselves from the land of their birth and their love.

THE PRESIDENT, on the 6th inst., answered the request of the House of Representatives, made on January 12th, for information in regard to the erection of Provisional Governments in the United States. This information was necessary to action on the part of Congress. Having obtained it, the Houses will doubtless promptly make known their views as to reconstruction.

HON. J. K. MOORHEAD.—Many prominent business men of this city have united in a formal request to this gentleman to consent to be a candidate for re-election to Congress from the Twenty-Second District. They set forth that his experience, peculiar knowledge, and identification with the leading business interests of Allegheny county make it important that he should continue at his present post.

TWO OR THREE MONTHS AGO, while the *Commercial* was loudly calling on the republicans to make black suffrage an issue in the coming election, we ventured to suggest, in view of our knowledge of the people, and of the legal impediments in the way, that our contemporary would not be gratified. By reading the Platform of the Convention it will be seen our prognostication was correct.

ON MONDAY next the friends of ANDREW JOHNSON in Kentucky are to hold a mass Convention in Louisville, "regardless of old party names or party issues." Its purpose is to nominate ANDREW JOHNSON for President in 1868.

Particulars of the Death of Gen. T. S. Bowers,

In addition to the brief dispatch from the Agent of the Associated Press, at Poughkeepsie, we this morning give the particulars of the deplorable accident to General T. S. Bowers, Assistant Adjutant General to Gen. Grant.

Gen. Grant, accompanied by Gen. Bowers and Gen. Grant's son, arrived at Garrison's station, on the Hudson River Railroad, opposite West Point, at a late hour on Monday night, and there compelled to remain, on the East side of the river, until morning. The next day, after breakfast, the distinguished party were ferried over the river.

After General Grant had left his son at the Point, (where he is to remain,) Lieut. General Grant, accompanied by Gen. Bowers, returned, arriving at Garrison's about three o'clock in the afternoon, and about fifteen minutes before the down train was due, on which they were to proceed to New York. When the train arrived, some difficulty occurred in relation to a carpet-bag belonging to the party being missed, when Gen. Bowers followed the station agent to the office, to see about it. Gen. Grant, in the meantime, being seated in the car next to the rear. When the agent arrived in the ticket-office, he picked up a carpet-bag and presented it to the view of Gen. Bowers, who said, "That is not the one." These were the last words spoken by the deceased.

The train at that time was in motion when Gen. Bowers rushed out [illegible] he [illegible] and [illegible] orde[illegible]

INDIAN[illegible] occured [illegible] Prof. J. M[illegible] There was [illegible] seduced a daughter of Dr. Ben. Newland. The doctor's daughter had been off at boarding school, when her condition became so apparent that she was sent home, where she confessed all to her father. The doctor took his pistol and one of his dissecting knives and went to Evans' house. The latter was not at home. Newland went to hunt him, and found him in the street, where he shot him down, and then cut him to pieces with the knife. Evans was a minister of the Christian church, and a man who at one time occupied a high position, and is well known as the author of a work entitled "The Pioneer Preachers of Indiana." At one time he occupied a chair in the North-western Christian University, in this city.

SENATOR WILSON'S RESOLUTION.—Senator Wilson, of Massachusetts, in the Senate, offered a resolution, which was adopted, directing the Judiciary Committee to inquire what legislation is necessary to protect officers of the army of the United States from arrest and prosecution by civil courts for acts done while in the United States service in compliance with orders from their superior officers. The Senator said some action must be taken to protect these officers. He learned that in some of the States, particularly in Kentucky and Tennessee, a large number of such suits had been commenced again and prosecuted. Major General Terry had informed him a few days ago, while in the city upon official business, that he had been served with papers in an action brought against him and had been put to considerable expense already in employing counsel and preparing for a defense.

MR. JOHNSON, who seems not only never weary of pardoning, but never satisfied unless he is pardoning somebody, has, we suppose in default of rebels, taken to pardoning counterfeiters, and has, within a few days, let loose—and this is the second or third case of the kind—a convicted forger of fractional currency. The counterfeiting of fractional currency is *par excellence* an offense against the poor, and, consequently, perhaps less entitled to indulgence than any other in the statute book. We respectfully suggest, therefore, that Mr. Johnson have a more careful examination made of the revolted States, as we have no doubt numerous objects for Executive clemency may yet be discovered there, and the northern counterfeiters be thus left to serve out their terms.—*The Nation.*

KILLED BY AN ENGINE.—Frank Olmyer, an employee of the Atlantic and Great Western Railway, was killed by an engine on that road, yesterday morning, as it was backing down from the engine house to be attached to the 9:30 passenger train. His legs and arms were broken, and his body otherwise horribly mutilated. This terrible calamity will fall heavily upon his wife, who, in consequence of poor health, has been unable to leave her home for over a year. The deceased was about thirty five years of age, and has been connected with that road ever since the construction of the Cleveland & Mahoning Railroad.—*Cleveland Herald.*

"THREE-FOURTHS OF THE CRIMES."—One of our Grand Juries, in a recent presentment, traces three-fourths of the crimes committed to the immoderate use of intoxicating liquors. This is indeed a serious record, but it only tells a part of the evils of all kinds which follow in the train of intemperance. Criminal courts and prisons are full of warning on the subject. But we must go farther, and visit hospitals and lunatic asylums, and alms-houses, and charitable institutions of all kinds, to learn the numerous diseases of body and mind the physical and moral degradation, assuming all forms and colors, of the victims of intemperance.—*Phil. Ledger.*

A WOMAN JUMPS FROM A FERRYBOAT AND IS DROWNED.—Wednesday evening, shortly after dark, a woman, closely veiled, stepped on board of one of the Newport ferryboats, while laying on the Kentucky shore, and took a seat. When the boat reached the middle of the river, she deliberately left her seat, walked to the rear guard, and jumped overboard. Some of the passengers who had noticed this proceeding, gave the alarm, but it came too late, as the poor woman had sunk, to rise no more. No clues as to her identity have been obtained.—*Cin. Gaz.*

REVOLUTION ONCE MORE PROPOSED.—The Chicago *Times* still dwells upon the idea of a revolution to be accomplished by President Johnson, at Washington, by means of armed force. It trusts "that he will employ all necessary and lawful means to put the Southern Congressmen in their seats. It is to be hoped that he can do this without a resort to force. We deprecate the use of the sword only in the very last cases. It has, however, its uses, and when the necessities are imperative, it should be employed effectively."

SUICIDE.—A married lady by the name of Mrs. A. Prichard, committed suicide in Lawton, Michigan, on Monday, by hanging herself in a barn. She was first discovered by her husband, but life was extinct. The cause for this terrible deed is not yet ascertained.

GENERAL NEWS.

[illegible]

THE divorce case of Kasson vs. Kasson, in Warren county, Iowa, has been settled. Mr. Kasson, M. C., the defendant in the case, appeared in open court and pleaded guilty to the allegations of infidelity. Consequently a decree was entered in accordance with the prayer of Mrs. Kasson's petition. The statement made several days ago that Mr. Kasson did not design to resume his seat in Congress, was incorrect. He has been absent some time in Iowa on personal business, and will soon return to Washington for the remainder of the session.

THE National Equal Suffrage Association met in Washington on Wednesday evening, when the Hon. W. D. Kelly, of Pennsylvania, was elected President, vice [illegible], resigned. The Hon. PROTEST AGAINST THE CONSTITUTIONAL AMENDMENT ABOLISHING SLAVERY.—*Raleigh, N. C.*, March 8.—In the Legislature, to-day, Mr. Ferribee entered a protest against the passage of the second clause of the constitutional amendment. He said a telegram had been received by Governor Worth from President Johnson, saying that the freedmen's code bill ought to pass without the proviso declaring that it shall not go into effect till the Bureau is removed.

A MEETING of citizens, "without distinction of party," the call said, was held in Dayton, Ohio, on Saturday last "to sustain the President in his recent veto of the Freedmen's Bureau Bill." Mr. Vallandigham opened the meeting with the remark that "it seems to devolve upon the Democracy exclusively to endorse the President in his patriotic course." This "was literally true of this meeting," says the Dayton *Journal*, for, "beside the reporter, there was but one Union man present."

THE Lawrence, Kansas, woolen factory is progressing rapidly to completion, they having lately received a large portion of the machinery, and the remainder being on the way from the East. But a few weeks will elapse before the busy hum of spindles, and all the paraphernalia of first-class factories, will be heard there, and Lawrence become the mart of an important and lucrative trade in wool and woolen goods, and a ready market for the coming spring clip.

GEN. B. H. GRIERSON, the hero of the famous raid in the Southwest, testified before the Committee on Reconstruction that he believed "there is now an organization existing throughout the South for the renewal of the rebellion," and that if we were engaged in a foreign war "the enemies of the Government throughout the South meditate and would not fail to seize the opportunity to attempt again its destruction."

BOUNTY DECISION.—It has recently been decided by the War Department that substitutes enlisted in Hancock's 1st Army Corps are not entitled to bounty. Those called representative substitutes, incorrectly so designated—it thereby meant "representative *recruits*" in the 1st Army Corps—are entitled to the same bounties as for other volunteer enlistments, including the $300 special bounty from the commutation fund.

SUICIDE OF A BANK PRESIDENT.—Mr. Wolf, President of the First National Bank of Mauch Chunk, shot himself on Monday morning with a pistol. A letter, dated same morning, to his friends, gave as a reason, the circulation of slanders against him which no doubt caused depression of spirits under which he labored at the time. He was without family.

PERSONALITIES.—Senator, now President Johnson, in his reply to Senator Lane of Oregon, March 2, 1861 (see Little, Brown & Co's edition of Mr. Johnson's Speeches,) said emphatically: "I was alluding to the use of personalities. LIFE INSURANCE! LIFE INSURANCE!—The NEW JERSEY MUTUAL LIFE INSURANCE CO. OF NEWARK, N. J., desires to call the attention of citizens of Pittsburgh to this subject, through their General Agent for the West, JAMES HUBBARD, at Monongahela House, Pittsburgh.

P. S.—One NEW feature in Life Assurance is that ALL OUR POLICIES are NON-forfeiting; for instance, if the party becomes unable to meet his annual payments he will NOT forfeit his policy, but the amount of insurance will be diminished by a sum equivalent to the premium so unpaid, thereby removing the ONLY valid objection that can be made against Life Insurance. SEWING MACHINES.

THE RECENT IMPROVEMENTS that have been added to the

WHEELER & WILSON

MACHINE

Have greatly increased its value, and the price remains the same, and but little in advance of other and comparatively inferior machines. Many have purchased other machines simply because they could be obtained at a little less price, when they would accomplish but half the amount of work, and have invariably regretted afterwards that they did not obtain THE BEST.

Since the modern improvements have been added to this machine, it has become unnecessary to prepare the work at all by basting, so that the entire sewing of an ordinary garment is performed without basting, which is a very great additional saving of labor.

Below we give a table made up from actual experiments showing the relative time occupied in making garments by this machine and also by hand.

CITY AND SUBURBAN.

FROM YESTERDAY EVENING'S GAZETTE

The Criminal Court.

Deitrich Cleymeyer, charged with the larceny of ninety dollars from Lonhardt Schneider, was convicted and remanded for sentence.

John Allinder was convicted of the larceny of a dollar, and recommended to the mercy of the Court. Sentenced to three months in the county jail.

Alfred Day and Homer Crissinger, respectable citizens of McKeesport, were indicted for felonious intent in entering the store of Mr. Carnahan, of that place, at a late hour in the night, and lighting a cigar. They denied any felonious intent, and although their conduct was highly improper the jury acquitted them.

Anna Small was put on trial for the larceny of three shawls from the store of Thomas Perry, of McKeesport. The jury found a verdict of guilty, and the defendant was sentenced to thirty days in jail.

Jacob Wehrie, the insane boy, whose desperate attempt to commit suicide (at the Mayor's office) we have already noticed, was put on a trial on a charge of assault and battery. The proceeding was for the purpose of determining his mental condition. The jury found a verdict of not guilty, by reason of insanity, and the boy will be sent to Dixmont Hospital.

Ann Weisenberger was convicted of assault and battery, and sentenced to ten days imprisonment in the county jail.

George Smith, *alias* Thomas Watson, was put on trial for the larceny of a fur overcoat, valued at one hundred dollars, the property of H. Brady Wilkins, Esq. The coat had been pawned at E. LeRoy's, for fifteen dollars, and after it had been recovered by the police, LeRoy had Watson arrested and committed for trial. He made no defense, but simply denied that he had either stolen or pawned the coat. Judge Stowe gave him a week or two in which to obtain evidence of previous good character, before passing sentence, but at the same time notified the prisoner that he would be severely dealt with if the Court was satisfied that he was one of those who prowled around dwelling houses, picking up whatever they could lay hands on. The prisoner says he had only been in the city a week when he was arrested, and that he came here from Cincinnati to get work. He hails from York, Pennsylvania. Remanded for sentence.

James Thompson plead guilty to two charges of larceny—stealing a pocket book and watch from a lady, and an overcoat from a gentleman. James is an old offender, and stated that he plead guilty because he was so drunk at the time, that he did not know where or how he got the stolen articles. Judge Stowe kindly informed James that he would put him where he would not get drunk for some time to come, and sentenced him to four years in the penitentiary.

The Frame Law in Allegheny.

This interesting subject was up in Select Council again last evening, the ordinance offered at a previous meeting (defining certain boundaries wherein frame houses should be erected) having been called up as new business. It was stated that, if this ordinance was passed, it would meet the views of the advocates of the repeal and satisfy the public generally. It would render the special election unnecessary, and would prevent the erection of frame houses in the older and more settled portions of the city—a thing so much dreaded by the opponents of repeal. There was considerable discussion on the subject, but the Council wisely concluded that, since an appeal had been made to the people, the subject should be left to their decision. Some members expressed the opinion that Councils should have shouldered the responsibility themselves—voted on the question squarely—and not attempt to shove the responsibility upon the people. The opponents of repeal were warned of the consequences of their act in voting down the ordinance, and it was asserted that the people would vote in favor of repeal by a large majority in every ward. This was answered by the assertion that there would not be as many votes polled for repeal as some people supposed, and that nearly every property-holder (who were the principal parties interested,) would vote against the repeal. The ordinance was laid on the table, and the question will go fairly before the people on Tuesday next.

Difficulty About a Coat.

An Irishman named Peter Horty entered the pawn establishment of Mr. Le Roy, on Smithfield street, Thursday evening, and bargained for a coat with A. Le Roy, father of the proprietor. When about to pay for the coat, Horty asked Le Roy if he was a Jew, and on being answered in the affirmative, he swore that he would not purchase anything from him. He then wanted to get the coat half a dollar cheaper, and a difficulty followed, in which Horty pushed the old man against a window, cutting his hand with the glass. Horty alleged that Le Roy caught hold of him and attempted to make him buy the coat, whether he was willing or not, but he failed to substantiate this allegation, and was committed to jail to answer, by acting Mayor Owston.

A Disgusted Editor's Farewell.—An editor in Ohio has retired to private life, after ten years' experience in the editorial chair. He takes leave of his readers in the following valedictory: "The undersigned retires from the editorial chair with complete conviction that all is vanity. From the hour he started his paper to the present time he has been solicited to lie upon every subject, and can't remember ever having told a wholesome truth without diminishing his subscription list or making an enemy. Under these circumstances of trial, and having a thorough contempt for himself, he retires in order to recruit his moral constitution."

Horrible and Fatal Accident.—The Butler *Citizen* says Mr. Jesse Crutchlow, while attending a threshing machine last week, slipped down off the grain into the mouth of the machine, and had both his feet horribly mangled. Dr. M'Cook, of Pittsburgh, was sent for, who amputated one of his feet, but it is said the unfortunate man only survived the operation a short time. Some allege that he was still under the influence of chloroform. This sad accident should be a warning to those whose business brings them in connection with machinery of all kind. Too much care cannot be taken.

Death of Jonathan Row, Esq.—This gentleman, after a lingering and painful illness, died at his residence in Indiana, Pa., on Thursday evening, the 22d inst. Mr. Row was for several years editor of the *Indiana Register*. In early days he was identified with the Anti-masonic party, and afterwards an ardent supporter of Henry Clay. At the rise of the great Republican party, he took hold of the just principles enunciated by it, and by his pen and influence contributed much to secure the large majority it has attained in Indiana county. His age was 64 years.

Boring for Oil in Jefferson County.—Some time since a company, composed of a number of enterprising citizens of Jefferson county, among whom are Messrs. M. Best, J. M. Steck, Ira C. Fuller, J. Sheasly and Dr. W. J. M'Knight, commenced boring for oil on the farm of Mr. M. Best, about three miles from Reynoldsville, and we are informed that they are down a distance of 865 feet; having come to the third sand rock, and are sanguine of striking oil.

Loss by Fire.—The dwelling house of Mr. Adam Rape, of Cranberry township, Butler county, was consumed by fire on the 21st of February, with most of the contents, together with a new house almost ready to be occupied. The loss is supposed to reach from $1,800 to $2,000. The old house and contents were insured in the Butler County Company, but the new house being unfinished was not insured, and the loss will fall heavily upon Mr. Rape.

Shutting Doors.—A sensible writer observes: "If we were teaching school or had the direction of boy's manners, we would spend a little time in telling them how to shut doors. We should tell them, when they come in at a door, to quietly turn round facing the door and close it gently by taking hold of the knob or latch, and not slam it to with the left hand or back up against it, as some do, and give it a bang as if making a bow without room enough in the rear."

Pilfering in the Market.—A boy named Trevor Richmond was arrested by officer Dressler to-day, on a charge of stealing a handful of script from the stall of Austin Freel, in the Diamond Market. Freel kept his script in a half peck measure, under the stall, and the boy reached under, grabbed the money, and ran away. He is said to have been guilty of several similar offenses, and will probably be held for trial.

The Wife of Houser, the Murderer.—This unfortunate woman, who resides in Birmingham, has been committed to jail by Justice Lipp, on a charge of vagrancy. It is said that her mind has become disturbed, in consequence of the misdeeds of her husband, and if this be so, an effort should be made to have her sent to the Insane Hospital.

Dead.—Philip S. Noon, Esq., District Attorney of Cambria county, died on Tuesday last, at his residence in Ebensburg. The deceased was a young man of fine attainments, and a son of the late Judge Noon.

Abandonment.—John Remurele was committed to jail last evening, by Alderman Donaldson, to answer a charge of abandonment, preferred by his wife Sarah Jane.

SPECIAL NOTICES.

AYER'S AGUE CURE, for the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

Fever and Ague is not the only consequence of the miasmatic poison. A great variety of disorders arises from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left as healthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell, because one bottle cures a whole neighborhood.

TURKISH BANDOLENIAN.

RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion, and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

ARE GOOD,

BUT

It is admitted by our most learned physicians that DR. ROBACK'S BITTERS combine the properties of a gentle laxative, an efficient anti-bilious agent, and the best stomachic known to the world.

ROBACK'S

BITTERS should be used by convalescents to strengthen the prostration which always follows acute diseases.

In the bilious districts of the West and South there has, for a long time, been much needed, an article of stomach Bitters, which, if taken in proper quantities and at the proper time, are a sure preventive of

Bilious Fever, Fever and Ague, Liver Complaint, Dyspepsia, Indigestion, Jaundice, Kidney Complaints, and all Diseases of a similar nature, and

Are Better

a preventive for bilious derangement, regulating the system, and giving tone to the digestive organs, than any other known remedy.

Now that the war is over, there will be thousands seeking homes in the South. No person who values his life should go there without having constantly at hand the BITTERS, as a safeguard against epidemic maladies engendered by miasma and polluted water.

Travelers to and all residents of the rank bottoms of the west and south, and the valleys of the Mississippi and its tributaries, should provide themselves with the

BITTERS.

FINANCE AND TRADE.

FRIDAY, March 9, 1866.

Gold is again a fraction lower to-day, opening at 131¼ in New York, and closing at 130⅝, the lowest point it has touched since last May. Government bonds steady, but without decided change one way or the other. Bank shares firm, with a continued good demand while all other local stocks are dull and neglected. Oil stocks, with the exception of a few well-known and reliable companies, to use a common phrase, "are about played out."

—It appears by the records in the Treasury Department that the revenue received from the lately rebellious States, from April, 1865, to the first day of this month, amounts to nearly $29,000,000, principally derived from abandoned lands and internal revenue. Louisiana has paid over $8,000,000 of this, while from Virginia less than $1,000,000 has been received.

—The exports of cotton from the port of New York for the week ending March 6 reached the unusual quantity of 17,442 bales, valued at $3,678,371, or equal to about two hundred and eleven dollars per bale. Included in the exports were 12,039 bales, valued at $2,462,659, to the single port of Liverpool. Thus far in the current cotton year, commencing with September 1, 1865, the exports of the staple from New York have been 291,287 bales, which represent a currency value of nearly sixty-one and a half millions dollars. The receipts of cotton from all sources, since September 1, 1865, have been 616,105 bales, worth about one hundred and twenty-nine million dollars. Thus, the average weekly exports this season have been about 10,800 bales, against the average weekly receipts at the port of a trifle over 22,800 bales.

—We have called attention, at various times during the last month, to the extraordinary imports of foreign dry goods. The total landed at New York in the last four weeks amounts to nearly seventeen million dollars in foreign gold value, against less than four millions for the same period in last year. The total entered for consumption, at that port since the 1st of January, is $22,717,648, against $2,799,462 in same time last year. The amount withdrawn for consumption in the two months is $7,024,612 against about half that sum in same time last year. The amount entered for warehousing, since 1st of January, is $9,752,721, against $2,274,863. Adding the amount entered for consumption to the amount wharehoused, and we have an aggregate of $32,470,669, against $6,074,325 in corresponding month last year. Here we have thirty-two and a half millions of dry goods, in gold value, landed at New York since the beginning of the year. This may well attract attention and have its influence upon that trade. The corresponding figures for 1863 were $10,297,038, or less than one third the present total, while last year less than one fifth of this value was landed at that port during the corresponding two months. We look for large shipments of cotton to offset, in great part, these extraordinary receipts, and it is not expected that this enormous increase in the imports can be maintained throughout the season. The exports have decreased more largely than the imports have increased. For the first two months of 1863 we exported nearly 3,000,000 bushels of wheat; this year only 67,700 bushels; and 50,000,000 pounds of cut meats, against this year, 5,460,196 pounds. During the same period the shipments of lard were nearly ten times the amount for the last two months; tallow four times; butter ten times the amount and cheese more than double. These are rather startling facts and very naturally elicit the inquiry, in what commodity have we paid for all this excess of imports, for that they are paid for is evident in the fact that sterling exchange is below the shipping point—rating at about 108¼@108½. The answer to the inquiry is found in the large shipments of Government bonds. There is some increase in the exports of cotton, naval stores and petroleum, but breadstuffs and provisions exhibit a very important falling off. The loss of productive labor during the war is now producing its result in a diminished surplus of products for exportation. The decrease in the export movement will be still more apparent after the 17th inst., when the Canadian treaty ceases to be in operation, as the large imports of breadstuffs from the British provinces has enabled us to increase our shipments to Europe to a corresponding extent.—*Phila. Ledger.*

—The direct export values from New York this week (says the *Times*, of Thursday) as noticed yesterday, are quite large.

In Cotton	$3,678,271
Other Produce	3,125,360
Total	$6,803,631

Embraced in the last item are 312,567 bushels grain and 26,385 barrels flour and meal, 530,986 gallons petroleum and a large value in provisions.

—The Chicago *Tribune*, of Thursday, speaking of Mr. McCulloch's loan bill, now before Congress, says:

"In our opinion, Mr. McCulloch had better withdraw his loan bill and confine his attention closely to discharging maturing obligations; pay off his certificates of indebtedness; provide for the payment of the interest-bearing legal tenders, as they mature, and let the currency question alone. The South is gradually opening up, and, within a year it will produce three million bales of cotton. This will supply us with all the gold we want and at the same employ a large portion of our surplus currency. Meanwhile the State Bank circulation is being gradually extinguished, and by the first of next July there will be nothing received as money in any part of the country but "greenbacks" and National Bank issues. This will be "contraction" enough to satisfy any reasonable advocate of the policy, and it will avert the disasters which will assuredly fall on us if capital is kept idle much longer."

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, March 9, 1866. }

CRUDE—The arrivals of Crude continue light, and while the stock on hand at present is by no means large, taking into consideration the fact that the river has been in navigable condition for about ten days, the supply, nevertheless seems to be somewhat in excess of the demand. In prices there has been no essential change since Thursday, though holders, generally, seem anxious to realize at the figures now current. Sale of 300 bbls, on the spot, at 15; 100 at 16; 3000, to arrive, and to be delivered between the 1st and 15th of April, at 15; and 60 at 20, bbls included. From the above it will be seen that quotations may be fairly given at 15, bbls returned, and 20, bbls included.

REFINED—Bonded oil was in rather better request to-day, but there is no improvement to note in prices. Sale of 500 bbls for April delivery in Philadelphia, buyer's option at 45; 500 for May, same option, at 45, and 1000 for all July, same option, at 45. For present delivery sales could probably be effected at 42@43, delivered in Philadelphia, while on the spot, here, there seems to be no demand whatever. Free Oil continues dull and neglected, and standard brands cannot be quoted above 56@58—in a small way.

NAPTHA AND RESIDUUM—There is no improvement to note in the demand for Residuum, and in the absence of sales, we continue to quote at $4@4½ per bbl. Sale of 200 barrels Naptha, (60 to 63 gravity) at 14c, in bond.

ARRIVALS—The arrivals of Crude by the Allegheny river since our last report, were as follows:

Jas. Wilkins	377	Fisher & Bro	1500
Wm. Haldeman	50	A. D. Miller	153
Wightman & Co	25	McKelvy & Co	172
Jas. Mawhinney	100

Bigland, Athya & Co., report as follows: "Refined is only saleable in retail, the continued decline in value, failing to give buyers confidence; small sales of Spirits at 1s 6d per gallon."

SHEEP—Continue in fair demand at an advance; 6000 head arrived and sold at from 6½@8c per pound, gross—the latter rate for good fat sheep.

New York Seed Market.

NEW YORK, 8.—Clover continues dull and prices droop; we notice sales of 600 bags at 9½@10c for Ohio and Pennsylvania, and 11¼ for prime State. Timothy is quiet, with only small sales at $3.50@4. Flax is dull and lower, 400 bush sold at $2.80@2.85. In canary, sales have been made of 150 bbls here, and to arrive, on terms not public. Linseed is inactive and nominal.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, March 9, 1866. }

The produce markets continue exceedingly dull and depressed, and what is worse still, there are no prospects at present of any immediate improvement. The demand for Flour, Grain, Groceries and Provisions is very light, being restricted almost wholly to supplying the immediate wants of the retail trade, while prices, generally, remain unchanged.

GRAIN—Wheat is quiet and dull but unchanged; Spring Wheat may be quoted at $1,65@$1,70, and Red Winter at $1,90@2. Corn is very dull and drooping; sale of 1 car White, in Ears, at 60; and 200 bush Yellow, on wharf, at 50. Oats dull—small sales from store at 44@46. Barley—last sales at 75 for Spring, and 90 for Fall. Rye is quoted at 73@75 cents, for prime Penna.

FLOUR—The demand for Flour continues light, but the market is firm, and prices are well sustained. We continue to quote at $8¾@8½ for Spring Wheat; $9¾@9¾ for half Spring and half Winter, and $10¾@10½ for all Winter. Rye Flour is dull at $5@5½. Small sales of Cornmeal at 75 per bush.

PROVISIONS—Bacon is dull but unchanged at 14½ for Shoulders; 17 for Ribbed Sides, and 23@23½ for Sugar Cured Hams. Lard is quiet but firm at 18½ for prime kettle rendered. Mess Pork is selling in small lots at $28½@29. No movement in Bulk Meats.

BUTTER—Is firm, with a very good demand, and prime Roll sells readily at 38@40—the latter figure for small packages.

EGGS—Dull and irregular, with sales reported at 25@28—some holders asking 30.

CHEESE—Sales of Common Ohio at 20@21, and prime New York Goshen at 24@25.

POTATOES—Steady, notwithstanding the receipts are increasing; sales from store at $1,15@1,20 per bush, and $3½@3¾ per barrel—mostly at $3½.

SEEDS—Clover Seed is very dull—small sales from store at $6½@6¾ per bush. Timothy Seed is selling in a small way at $3¾@4. Flaxseed is in demand at $2,75@2,80.

SORGHUM—Is selling to the trade at 68@70 cents, and in a jobbing way at 73@75.

HAY—The demand for Hay is very light, and the market is dull and depressed but unchanged; sales of baled at $14 to $15 per ton.

BEANS—The demand seems to be falling off somewhat, but prices are nominally unchanged, ranging from $1,75 to $2 per bush.

DRIED FRUIT—Dull but unchanged. Sales of Apples at 13@16, and Peaches at 15 to 18 for quarters and 19 to 21 for halves.

OIL—Sales of No. 1 Lard at $1,83@1,85.

Cleveland Market.

CLEVELAND, March 9.—Wheat—Quiet steady and firm for high grades. Sales 1 car No. 2 Shelby red at $1,75; 2 cars No. 2 amber Michigan at $1,69; 1 car No. 1 Milwaukee spring on track at $1,60. Corn—Dull and in light demand. Sale 1 car new shelled at 53c. Oats—Dull. Sale 1 car No. 1 Ohio from store at 36c. Rye—Dull and nominal. Barley—No sales.

Baltimore Seed Market.

BALTIMORE, March 8.—Remain inactive; clover is but little inquired for, and sales are confined to small lots for local wants at $6.25@$6.50 for good to prime, and $6.75 for choice. Timothy quiet, with small sales at $4@4,12½. Flax dull; we quote at $2,55 per bush.

MARKETS BY TELEGRAPH.

Finance and Trade in New York.

STOCKS, &C.

The stock market was generally stronger at the second regular and last open boards, and the features were Erie, Michigan Southern, Rock Island, and Pittsburgh. The following were the closing prices: Erie, 82¾; Reading, 97½; Michigan Southern, 74¼; Illinois Central, 115; Cleveland and Pittsburgh, 76¾; Rock Island, 108; North Western, 25¾; Do. preferred, 52¾; Fort Wayne, 89¾; Ohio and Mississippi Certificates, 25; Canton, 44½. Miscellaneous shares were dull and lower. Western Union, 66½; Quicksilver, [illegible]; Pacific Mail Stock, 210@212; Do. Scrip, 193@198; Atlantic Mail, 130@133.

Governments are strong. The last steamer brought fresh orders for Five-Twenties, but not, apparently, for larger amounts. Ten-Forties are active, and advanced ½ per cent, closing at 90½.

The London *Telegraph*, of February 21, says: While all other securities were depressed, and even consols were steadily falling, week after week, United States Five-Twenty bonds not only maintained their value, but advanced from 63 to 67, and are now quoted at 68½. Whether this exceptional result is justified by the state of trans-Atlantic finances, forms a subject worthy of close examination. The amount of American Securities afloat is very great. It then proceeds to show the insecurity of American Securities. The day after, however, Five-Twenties advanced to 69½. State Bonds were generally steady, without special change in quotations.

MONEY.

There was a fair demand for money to-day, but it was supplied readily at six per cent. on call. Prime discounts are 7@8 per cent., with a little more doing.

GOLD.

Gold ranged from 130½ to 130⅝.

The *Commercial* says gold still tends downward. Parties who have recently bought for an advance appear to have lost confidence in a higher premium, and are sellers. It closed at 130¾. The stock market is dull, and for the moment weaker on the Railroad List. Prices were lower throughout. Miscellaneous Stocks were also weak, and ½@¾ down. The Erie corner appears to have dissolved. There is no demand for Cash Stocks. Michigan Southern opened strong, at 74, at which 3,500 shares were sold, and closed at 73. The Stock is held largely in strong hands, and a considerable amount of stock is likely to be held off the market until after the election of officers. Governments are strong. The last steamer brought fresh orders for 5-20's, but not apparently for any large amounts. Ten-forties are active, and advanced ½ per cent., and closing at 90¾. Seven-thirties are firmer. The first series closed at 99½.

Money still exhibits a steady tendency toward ease. Some of the Banks are relaxing their rate on all loans, and private Bankers are lending more at 6 per cent., the prevaling rates on sales, however, is 7 per cent. There is more demand for paper. Prime names pass at 7@8 per cent., with rather more doing at the lower rate. There is a full supply of good paper at 8@9 per cent., including a large proportion of dry goods at auction notes, lower grades pass at 10@15 per cent. Foreign exchange is quiet. The improvement in money affairs in Europe, has, in some cases, relaxed the necessity of remittance from this side, and importers are disposed to hold off, in expectation of lower rates and a further fall in gold. The leading drawers quote sixty days, sterling at 108¾, but the best names can be bought at 108½, commercial sterling at 107@108 francs, long date at 512@515 francs, short date 517½@515.

DRY GOODS

There is rather more doing in dry goods, but there is a tendency of still lower prices, Southern buyers purchasing to a fair extent, and payments from this section are quite satisfactory and large. There are no Western buyers, jobbers and retailers from large cities in town, but merchants from small towns and villages are not yet in force. The decline in gold and extensive importations, tend to bring down the prices on all foreign fabrics. The following are the quotations at the Dry Goods Exchange: Brown Sheetings—Salmon Falls A, 26; do C, 33; Laurel C, 21; do A, 25. Bleached Shirtings—Clinton C C C, 35; do C C, 30; do C, 28. Cambrics—Manville, 20; Victory, 19. Brown Drills—Pepperell, 27½; Winthrop, 25. Corset Jeans—Pepperell, 32; Bates, 22. Prints—Sprague, 21; Harvester, 20; Freeman, 16½; Wamsutta, 15. Delaines—Hamilton, 22; Armures, 27. Ginghams—Lancaster, 26; Hartford, 23. Canton Flannels—Lavonia, 35; Pemberton C, 30. Ticks—Hamilton C C, 40; do D D, 35. Ticks—Whittendon A A, 37½; do B B, 32. Hoop Skirts—Bradley's Duplex Elliptic and Empress Trail in active demand; Meyer's I X L in good demand for narrow tapes.

CUSTOM RECEIPTS.

The receipts of customs, last month, at the principal Atlantic ports were $14,027,374, as follows: New York, $12,000,110.94; Boston, from Feb. 1 to Feb. 24, $1,355,514.67; Philadelphia, $530,198.26; Baltimore, $285,549.83.

PETROLEUM EXPORTS.

The Philadelphia *Ledger* gives the total export of Petroleum from the United States as follows: For the year 1862, 272,193 bbls; 1864, 694,724 bbls; 1865, 745,138 bbls. The estimated excess of stock on the 1st of January last was 208,225 bbls.

New York Market.

NEW YORK, March 9.—Cotton dull and heavy, and nominally 1@2c lower; 41@42c for middling, closing at the inside price. Flour, unsound dull and drooping, middling and good grades are without decided change, at $7.15@7.55 for Extra State; $8.20@8.85 for Extra R. H. O., and $8.90@11,00 for Trade Brands; the market closing dull. Whisky dull and nominal, at $2,28@2,30. Wheat steady for Winter, and dull and drooping for Spring; $1,65 for No. 2 Milwaukee Club; $1,78 for New No. 1, do., and $2.50@2.60 for White Canada. BOATS LEAVING TO-DAY.

RIVER, WEATHER, ETC.

The river is still receding steadily at this point, with less than six feet in the channel by the pier marks last evening. Telegrams from Oil City report weather cold with thirty inches of water at that point, and river full of floating ice.

Business continues very dull at the wharf, the offerings of freight for all points being light and the receipts also, are limited. There is some little freight offering for points on the Upper Mississippi, which will doubtless be increased considerably within the next week or two, as usually a large amount of Pittsburgh manufacturers are shipped to different points on that stream during the spring season. The passenger trade, also, promises to be large, as there will no doubt be a large emigration to the West this spring and early in the summer.

There has not been a single transient arrival since our last report. The Revenue, from Cincinnati, had not arrived when we left the wharf last evening, but she was momentarily expected.

CINCINNATI, March 9.—River at a stand. No arrivals. Weather cloudy, with indications of snow. Mercury 35 degrees above zero.

LOUISVILLE, March 9.—River has risen an inch. Seven feet nine inches in canal, by marks. Glasgow due from Nashville. Weather cloudy.

ST. LOUIS, March 9. River rising fast, with nineteen feet hence to Cairo—all upper streams rising. Nightingale leaves to-day for Pittsburgh. No arrivals.

The Peerless and Petrolia arrived from Oil City on Thursday night, and the Leclaire left for that point last evening. The Peerless was full of passengers both on her up and return trips, and carried on her all the freight she could carry on the water. Doubts are entertained about the Leclaire being able to reach Oil City this time.

The Forest City, Capt. John Gordon, is the regular packet for Parkersburg to-day, and passengers and shippers should bear this fact in mind. She leaves promptly at 11 a. m.

The Kate Robinson, Capt. Robt. Robinson, will probably be ready to leave for Cincinnati and Louisville this afternoon. The Kate has excellent accommodations for passengers, and is in charge of experienced and gentlemanly officers. Mr. John Wherry still retains charge of the office.

The Camelia, Capt. J. L. Lytle, is announced for Nashville, and the America, Capt. Golding, for New Orleans, are filling up steadily, and will get off early next week.

The Savanna, Capt. Jolly, and the Columbia, Capt. Porter, are announced for all points on the Upper Mississippi. They are both neat passenger steamers.

The Leonidas, in command of Capt. M. A. Cox, is filling up rapidly, and is announced for St. Louis and all intermediate points forthwith.

RIVER NAVIGATION OPENING.—The Detroit papers prove the preparedness of the Detroit River for navigation, by stating that the steamer Clara arrived up on Thursday from Texas Landing, near Amherstburg, where she wintered, the first arrival of the season, reporting the river clear of ice. On Friday afternoon the steamer Princess set out from Detroit for Malden, and will run regular trips. Last year the first trip of the season was made by the steamer Pearl on the 9th of March, just a week later than the first trip this season.—*Detroit Tribune.*

WASHINGTON, D. C., March 3d, 1866.

Sealed Proposals will be received at the Office of the Supervising Architect, Treasury Department, Washington, D. C., until 12 M., APRIL 5th, 1866, for furnishing the Burglar Proof and the Burglar and Fire Proof Safes required by the Treasury Department for one year from the acceptance of the proposal of the successful bidder.

Specifications and drawings for the Burglar Proof Safes, showing the form of construction at present used, viz: alternate plates of iron and hardened steel, can be obtained upon application at this Department.

Burglar and Fire Proof Safes will be constructed in the same manner and cased with a suitable fire proof covering, the plans and specifications for which must be submitted by the bidder.

Safes to be shipped in perfect condition within a reasonable time from date of order.

The Locks will be furnished by this Department, but must be put in place by the contractor, and be in perfect working order when the Safe is turned over to the proper officer of the Government.

The bids to be per superficial foot, measured on the outside, and to cover all charges whatever including painting and door fixtures, (except cost of locks.)

Proposals will also be received for Burglar and Powder Proof Locks, to be accompanied with samples.

All bids must be accompanied by the guaranty of two responsible persons in the sum of $5,000, that the bidder will accept and perform the contract if awarded to him, the sufficiency of the security to be certified to by the District Attorney of the district where the bidder resides.

The Department reserves the right to reject any or all bids, or to award the contract for Burglar Proof Safes to one party, and the Burglar and Fire Proof Safes to another, if it be deemed for the interest of the Government to do so, and no bid will be considered that does not conform to the requirements of this advertisement.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1866.

DR. KEYSER—My wife has been afflicted with a bad cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured one of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then used a one dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this you desire to do so. WM. WILSON,
Alderman, Fifth Ward.

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half a bottle she was relieved. The second bottle cured her entirely of her cough. JOHN DARIN,
Robinson street, Allegheny.

PITTSBURGH, December 31, 1863.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, as after I had taken one bottle I was entirely free from the coughing and spitting. I had thought I was getting well, and I think it is proper I should make this valuable remedy known to those suffering as I was done in my case. JOHN C. LITTLE,
Witness: R. M. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1864.

A WONDERFUL CURE.—Some time ago a neighbor of mine was very ill with a bad cough which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and he said that he did not believe that he could not live. I had about the third of a bottle of your Pectoral Syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life. JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. F. Maher, both of Blairsville, Pa., told us they would not be without it in their families. In fact, all who use it speak of it in the highest terms. Yours, respectfully,

J. S. WATTERSON & SONS.

January 30, 1866.

PITTSBURGH, November 18, 1858.

DR. KEYSER—Although not an advocate of Patent Medicines, in general, I take great pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may be in any way afflicted with coughs, colds and hoarseness of any kind, and for the coughs of children particularly, it has a most peculiar qualification for removing the disagreeable sensation attending a severe cold. I have been, more or less in my life afflicted with the severest of colds and hoarseness. At times my throat would become so clogged as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely. In recommending the medicine, I do so unhesitatingly say that it is the best remedy I ever saw purporting to cure the above, nor should any family be without it, for diseases so prevalent.

Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1865.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best [illegible] I have ever taken. J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir: Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the cough out of my throat, and I hope it will as well serve you out of my lungs. I had been the worst any one ever afflicted with. I have not used more than one-half of the bottle, and I am entirely cured. If this cough would give it as fair a trial as I have given it, they will be sure to be cured. It is not a quack medicine. It would not suffer another such an attack for any consideration, or any amount. I can say that I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this regard as you think proper.

T. F. PRATT,
Messenger, Pittsburgh, Pa.

N. B.—I am no stranger to my fellow-citizens, and all who entertain doubts can see me personally. T. F. P.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I have been troubled with a cough and cold for several weeks, so much that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, which have done me no good. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.

(Signed) J. W. SIMONTON,

January 9th, 1866.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experiment, cheerfully concede to the latter's recommendation as above, for we have tried the "Pectoral," in two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, moulish, unsubduable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for over eight days, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and stubbornness. We crossed it out, to Keyser's, No. 140 Wood street, procured a fifty cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the situation. The cough was completely surrendered, after a brief, but vigorous contest, to the formidable adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1865.*
